In order to be considered an Economic Revitalization Area, Indiana Law requires that the area be undesirable of normal development. What evidence can be provided that the property on which the project is located has become undesirable for, or impossible of, normal development and occupancy because of age, lack of development, cessation of growth, deterioration of improvements or character of occupancy, obsolescence, substandard buildings or other factors which have impaired values or prevent a normal development of property or use of property or is an area where a facility or a group of facilities that are technologically, economically, or energy obsolete are located and where the obsolescence may lead to a decline in employment and tax revenues?
